

Hunter Eddington

Identity and Access Management Engineer II | White Oak, TX | hunter@eddington.tech | linkedin.com/in/hunter-e-578660371 | github.com/Nerdykidtech

PROFESSIONAL SUMMARY

Identity and Access Management professional with over 11 years of progressive experience in systems administration, cloud operations, and IAM engineering. Proven track record of architecting scalable cloud solutions, implementing zero trust architectures, and managing enterprise identity governance. Self-directed learner with expertise across Microsoft Azure, PowerShell automation, and cross-platform system management.

TECHNICAL SKILLS

Identity & Security:	IAM, Identity Governance, Zero Trust Architecture, Cloud Security, Azure AD, Conditional Access, Privileged Access Management
Cloud Platforms:	Microsoft Azure, Azure Bicep, Azure Resource Manager, Cloud Infrastructure
Systems & Administration:	Windows Server, Windows 10/11, Active Directory, Group Policy, Server Administration
Scripting & Automation:	PowerShell, Bash, Azure Automation, Infrastructure as Code
Networking:	Network Administration, TCP/IP, VPN, Firewall Management

PROFESSIONAL EXPERIENCE

American Specialty Health | Remote

Full-time | 5 years 1 month (September 2022 – Present)

Identity and Access Management Engineer II

March 2026 – Present (5 months)

- Design and implement enterprise-scale identity governance workflows
- Architect zero trust security components and cloud automation solutions
- Develop internal security documentation and threat analysis
- Lead cross-functional initiatives to harden cloud infrastructure across multi-provider environments

System Engineer I

July 2025 – March 2026 (9 months)

- Engineered system solutions supporting enterprise infrastructure
- Automated deployment processes and system configurations
- Collaborated with security teams to implement compliance controls

System Administrator II – Cloud Operations

September 2022 – July 2025 (2 years 11 months)

- Architected and deployed scalable solutions on Microsoft Azure Cloud platform
- Optimized cloud infrastructure for performance and cost efficiency
- Implemented Infrastructure as Code using Azure Bicep templates
- Managed Azure resources including VMs, networking, storage, and security configurations

- Reduced deployment time by 40% through automation and standardization

System Administrator I

July 2021 – September 2022 (1 year 3 months)

- Administered Windows Server environments and Active Directory
- Managed group policies, user accounts, and access controls
- Provided Tier 2/3 support for infrastructure issues
- Maintained system uptime of 99.9% across critical business systems

At Home Healthcare | Tyler, TX

Full-time | March 2017 – August 2021 (4 years 6 months)

Information System Specialist – 2

- Managed and maintained enterprise systems including Windows 10 and Windows Servers
- Administered Active Directory, Exchange, and domain infrastructure
- Implemented Azure cloud solutions for backup and disaster recovery
- Developed PowerShell scripts to automate user provisioning and system maintenance
- Reduced manual IT tasks by 60% through automation initiatives
- Served as primary escalation point for complex technical issues

Drug & Alcohol Testing Compliance Services | Longview, TX

Full-time | February 2015 – March 2017 (2 years 2 months)

Computer Systems and Network Administrator

- Provided critical system and network administration for servers and infrastructure
- Managed Windows Server environments and network security
- Configured and maintained routers, switches, and firewalls
- Implemented backup and disaster recovery solutions
- Ensured HIPAA compliance for sensitive data handling

SHATTERED ER LLC | Longview, TX

Full-time | August 2013 – February 2015 (1 year 7 months)

Computer Repair Technician

- Resolved complex customer issues including virus removal and malware remediation
- Performed software and hardware installations, upgrades, and repairs
- Managed warranty repairs and vendor relationships
- Maintained detailed service records and documentation
- Delivered excellent customer service with high satisfaction ratings

PROJECTS

Nuvio – Streaming channel for Roku and Android Automotive app

- Built complete streaming solution from scratch using SceneGraph architecture
- Implemented QR authentication system for seamless user onboarding
- Optimized launch time to under 2.5 seconds through performance profiling
- Developed Android Automotive variant meeting in-vehicle distribution requirements

Autheris – iOS 2FA Token Manager (Open Source)

- SwiftUI-based privacy-focused TOTP generator using secure enclave storage
- Published on App Store with zero cloud dependencies or tracking
- → github.com/Nerdykidtech/Autheris

Security Blog Automation Pipeline – Automated content system

- Python pipeline monitoring RSS feeds and publishing to LinkedIn
- Self-hosted infrastructure with cron scheduling and duplicate detection
- → [Eddington.Tech](https://eddingon.tech) (live site)

EDUCATION & CERTIFICATIONS

Self-Directed Technical Education

- Continuous professional development through hands-on projects and industry research
- Specialized training in Azure cloud services, identity management, and security frameworks

Technical Certifications (In Progress)

- Microsoft Azure Administrator (AZ-104) – Target: Q3 2026
- CompTIA Security+ – Target: Q4 2026

PROFESSIONAL DEVELOPMENT

Regular Contributor – Publish security content on IAM hardening, threat analysis, and practical security guides including topics on BitLocker bypasses, AI-driven social engineering, and zero trust implementation.

Open Source Contributions – Active GitHub presence with focus on security tools and automation.

References available upon request. Open to discussing IAM architecture, cloud security, and infrastructure engineering opportunities.
